

## MAKE A PORTFOLIO USING GITHUB PAGES

1. You need to watch this first! <https://www.youtube.com/watch?v=pBy1zgt0XPc>
2. Now visit [www.github.com](https://www.github.com)
3. Select Signup
4. Follow the process and verification:

Welcome to GitHub!  
Let's begin the adventure

Enter your email\*

✓ john.miaris@theskillsnetwork.com

Create a password\*

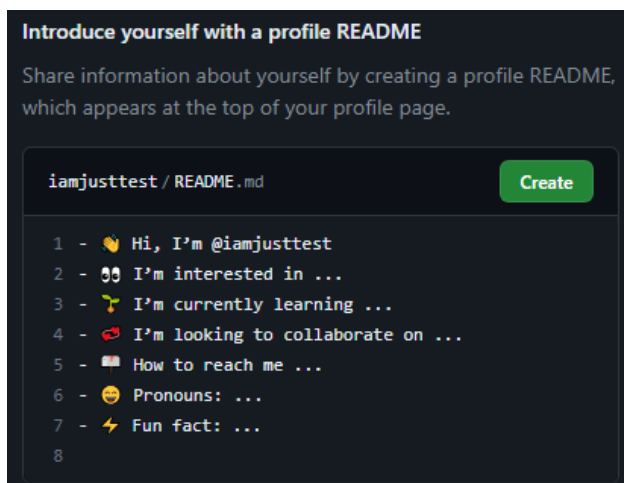

✓ .....

Enter a username\*

→ iamjusttest

Continue

5. You do not need to explain why and how you are going to use github in any of the subsequent questions.
6. Select the option CONTINUE FOR FREE
7. Create an introduction repository

**Introduce yourself with a profile README**

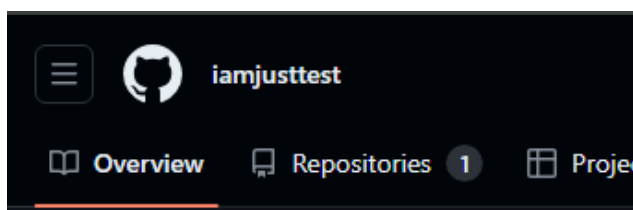

Share information about yourself by creating a profile README, which appears at the top of your profile page.

iamjusttest / README.md

Create

```
1 - 🙋 Hi, I'm @iamjusttest
2 - 🧑 I'm interested in ...
3 - 📖 I'm currently learning ...
4 - 🤝 I'm looking to collaborate on ...
5 - 📬 How to reach me ...
6 - 😊 Pronouns: ...
7 - ⚡ Fun fact: ...
8
```

8. Modify the comments in your introduction repository. If you would like to hide a comment just inclose it in <!-- the comment to hide
9. Press Commit Changes in all options given.
10. Select the root of your github at the upper left corner i.e.

11. You now have a github to enjoy!
12. Follow on the instructions of this video to create a portfolio. No need for web development coding experience: <https://www.youtube.com/watch?v=D9CLhQdLp8w>
